I went on line to read article and found 5 pages listing all the articles and media that was carrying this story.

26. Smoldering Landfill Could Threaten Nuclear Waste

Associated Press (AP) -- 5/29/2013 New York, NY

It's a problem that worries many people in this densely populated area near Lambert Airport, where the trash burns just 1,200 feet from another landfill that holds radioactive waste dating back to the Manhattan Project, which created the first atomic bomb in the 1940s.
